### About This Game

Welcome to Black Annex, your new home on the network. Your role here will put you in charge of a number of agents with skill-sets catered from aggressive weapon usage to stealth and deception - beyond this, you'll be customising their ability and weapon load-outs as you see fit to handle the task at hand. Choose any agent to act as your PERSONA at Black Annex and manage the business side of things before taking direct control of a squad and deploying to the mission location.

- An isometric action-fest with a twist of deception and espionage!

- 
- A huge array of missions spanning multiple corporate locations!
  - Collect enemy agents during missions to add to your team!
  - Choose your own approach, infiltrate silently with a single INTRUDER or send in a murderous squad of ENFORCERS!
  - Expand Black Annex dynamically to grow your company reach and discover the network's nature!
  - Upgrade Black Annex's capabilities over time to further breach target corporations!
  - Complete key mission objectives or just explore your enemy locations in search of the asset data!

Black Annex welcomes the player to their role by tasking them with exploring a network of corporate subterfuge. Build your presence, allocate resources as you see fit and cultivate an unstoppable team of agents capable of reaching the deepest nodes on the network.
